

Atlantic Rhododendron & Horticultural Soc. 2015 SEED EXCHANGE

INSTRUCTIONS

Seed packets are \$2.50 CDN each for collected wild, \$2.00 CDN each for hand-pollinated and \$1.50 CDN each for open-pollinated seed. One packet per lot per person. More may be ordered but are subject to availability. **All orders must be on the [form provided](#) and should be received by **February 20, 2015** for members-only.**

Exchange will be open to the public until April 30, 2015

***NOTE:** There are addendums to this list compared to the copy received as a member email.

Late Additions have been added at the end of the original list
Seed lots which are **NOT AVAILABLE** will have a strikethrough

Last Update: May 8, 2015

Send all orders to: Sharon Bryson, #407 Old Maryvale Rd., RR#3 Antigonish, Nova Scotia B2G 2L1 CANADA Please make your cheque or money order payable to 'Atlantic Rhododendron & Horticultural Society'. Add \$3.00 CDN for postage & padded envelope. Please list substitutes as quantities for some lots are small.

US regulations now require an import permit and a phytosanitary certificate. Seeds sent to the US will be shipped without a phytosanitary certificate and at the orderer's risk.

SEED LIST

DONORS: **ADD** - Betty Ann Addison, Minneapolis, MN **BIE** - Sophie Bieger, Halifax, NS **BIR** - Jens Birck, Copenhagen, Denmark **BRU** - Joe Bruso, Hopkinton, MA **CHR** - Ian Christie, Kirriemuir, Scotland **CLY** - Bruce Clyburn, New Waterford, NS **CRE** - Mike Creel, Lexington, SC **DAU** - Tadeusz Dauksza, Orland Park, IL **DOI** - Y. Doi, Japan **FIE** - Ray Fielding, Nova Scotia **HAR** - Joe Harvey, Victoria, BC **HOP** - Chris Hopgood, Halifax, NS **KRE** - Steve Krebs, Kirtland, OH **LOO** - Jack Looye, Niagara on the Lake, ON **MEI** - Rocky Mei, Toronto, ON **POP** - Harold Popma, Sackville, NB **REE** - Ed Reekie, Wolfville, NS **SHA** - Ken Shannik, Halifax, NS **THE** - Kristian Theqvist, Finland **WEA** - John Weagle, Halifax, NS **WES** - Dennis Weston, Dresden, ON **WIL** - Bill Wilgenhof, Antigonish, NS

Rhododendron Species - Hand-Pollinated - \$2.00

- 001 ~~SHA~~ ~~Rhododendron~~ ~~*camtschaticum*~~, pink-purple selfed 2014
002 SHA *Rhododendron canadense*, native Rhodora
003 SHA *R. minus*, Carolinianum Group h.p. self clean pink form, ex Chamagne garden, Halifax
004 WEA *R. kaempferi* siblings ex 'Hakodate' evergreen azalea
005 SHA *Rhododendron schlippenbachii* - good pink form
006 SHA *Rhododendron vaseyi* 'White Find'

Rhododendron Species - Open-Pollinated - \$1.50

- 007 ~~WIL~~ ~~*R. albrechtii*~~, early deciduous species Bright cherry red bloom
008 KRE *R. austrinum* (yellow-orange)
009 SHA *Rhododendron canadense* 'Alba'
010 BIR *R. dendrocharis*
011 CRE *R. flammeum* "Harry's Honey" may produce tricolor seedlings
012 CRE *R. flammeum*, "Maggie Chavis", excellent orange red, originally from South Carolina
013 REE *R. luteum* (Sweet Azalea), 2 to 3 m in height with yellow, very fragrant flowers; native to SE Europe and SW Asia
014 WIL *R. kiusianum*, pink
015 WIL *R. kiusianum*, white
016 WIL *R. maximum*, pinker form
017 WEA *R. mucronulatum* v. *taquetii*, purple Compact, expect about 25% true
018 REE *R. prinophyllum* (Roseshell Azalea) – native to Northeastern North America; very fragrant pink flowers 2014
019 MEI *R. schlippenbachii* (Japanese Royal Azalea)
020 REE *R. schlippenbachii* (Japanese Royal Azalea) native to Korea, Japan and parts of Russia; pink flowers; can get quite tall (3 to 4 m)

Rhododendron Hybrids - Hand-Pollinated -\$2.00

- 021 ~~KRE~~ (05-181#6 x *R. hyperythrum*) best yellow x (05-181#6 x *R. hyperythrum*) best yellow sibling
goal: heat tolerant, compact, hardy yellow

FOOTNOTES

- †1. A Chris Trautmann cross - hardy, red/white bicolor.
- †2. ('Papaya Punch' x 'Casanova') is Looye's good yellow
- †3. "Purple Enigma" Un-registered name, cross of 'Calsap' x 'Janet Blair' with purple flowers.
- †4. Sally Perkins, N.H. did this cross originally: "They gave the reddest and latest blooming deciduous azaleas...August."
- †5. Seed has been stratified. Store in fridge in plastic packet as received until March/April then sow in warm soil.
- †6. Liliium seeds may require a warm/ moist period followed by a cold period if there is no germination. Plant cold treated pots outside in spring.
- †7. Magnolia seed has been stratified. Store in fridge in plastic packet as received until March/April then sow in warm soil.
- †8. The specific epithet hispidus (often given incorrectly as hispida or hispidum) refers to the small ribbed fruits which are covered in bristles. The common name "epalette tree" refers to the fringed individual flowers.
- †9. *Xanthoceras sorbifolium* is a small deciduous tree or large multi-stemmed shrub considered rare in America and Europe. Also known as the CHINESE FLOWERING CHESTNUT, it has large white 1" flowers with a red or yellow blotch

at the base. ~ 15 feet, with dark green leaflets. China. Zone 4. Hardy in the North. The flowers, leaves, and fruit are said to have been used as food.

- † 10. The species *M. baileyi* is probably the big perennial blue poppy most familiar to gardeners, although until recently (2009) it had been known for many decades under the name *Meconopsis betonicifolia*. However, the original name, *M. baileyi*, has recently (2009) been restored to this taxon.

NOTES

1. Open-pollinated species, with the exception of a very few, may not come true from seed. Cultivars, with the exception of a few perennials do not come true. Plants from these seeds should be labelled as being "ex" that species or cultivar.
2. The 2015 Seed List will be posted on the Internet with insertion of images and links to help in your decision-making.
<http://www.willowgarden.net>
Follow the links for 2015 ARHS Seed Exchange.
A link to the list will be inserted on the Atlantic Rhodo site.
www.atlanticrhodo.org
3. Also see the ARHS website for an article on growing rhododendrons from seed.
4. When sowing rhododendrons on peat we recommend you sterilize it first. Microwave it for 15 minutes or pour boiling water through it several times. Allow to cool.
5. We would like to thank the seed donors for their time and effort making crosses, collecting and cleaning seeds.
